DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Travis Ribar on July 18, 2008.

The application has been amended as follows:

1. Claim 1 has been replaced in its entirety with the following:

--1. A film covered battery comprising:

a battery element having a positive electrode and a negative electrode opposing each other;

lead terminals connected to said positive electrode and said negative electrode of said battery element, respectively;

a flexible casing for sealing said battery element and said lead terminals together with an electrolytic solution, said lead terminals partially extending from said casing;

a buffer formed in at least a portion of said casing for accumulating a gas generated within said casing through deformation of said casing, said buffer being formed continuously with a region in which said battery element is accommodated;

wherein said film covered battery comprises said buffer above and below said battery element, said lower buffer being limited in deformation of said casing; and

a casing presser member at a position corresponding to said lower buffer for pressing said casing from the outside thereof.--

2. Claim 8 has been canceled.

Remarks

This Office action is responsive to applicant's amendment filed on September 28, 2007.

By entry of the Examiner's Amendment, claims 1-6 and 9 are pending.

Information Disclosure Statement

Applicant's remarks directed to the Information Disclosure Statement (IDS) filed on April 3, 2007, in which the examiner lined through the citation of JP 2001-222986 and JP 2000-133216, are noted. Applicant states that copies of the documents were submitted earlier in another IDS filed on January 25, 2006 and March 2, 2004, each of which was fully considered by the examiner. Accordingly, there is no need for these documents to be cited and initialed off in the April 3, 2007 IDS as they have already been properly cited and fully considered elsewhere.

Claim Rejections - 35 USC § 102 and 103

The rejection of claims 1-5 under 35 U.S.C. 102(b) based on Lewin et al. (U.S. Pat. 5,916,704) has been withdrawn.¹

The rejection of claims 1-5 under 35 U.S.C. 102(e) based on Naskali (U.S. Pat. 6,713,209 B1) has been withdrawn.

The rejection of claims 6 and 10 under 35 U.S.C. 103(a) based on Naskali (U.S. Pat. 6,713,209 B1) and either Komatsu (U.S. Pat. 6,797,429 B1) or Tura et al. (U.S. Pat. 5,419,982) has been withdrawn.

In withdrawing the prior art rejections, the examiner notes that independent claim 1 has been amended to incorporate the subject matter of provisionally allowed claim 7 (now canceled) and further amended by the present examiner's amendment to incorporate the subject matter of claim 8. In reciting the features of claim 8 into independent claim 1 by the instant Examiner's Amendment, the present claims preclude any interpretation of U.S. Pat. 5,916,704 as being otherwise readable on a lower buffer being limited in deformation, to the extent that Figure 1 of the reference shows an inflated battery foil container enclosure being limited in deformation by virtue of the container inflating to a certain limit (just prior to its eventual rupture).

Allowable Subject Matter

Claims 1-6 and 9 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or suggest a casing presser member at a position corresponding to a lower buffer

for pressing a battery casing from the outside thereof so as to render the lower buffer as being limited in deformation of said casing.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

¹ The prior Office action rejected "Claims 1-15..."; "15" should have been "5" and was an inadvertent typographical error on the part of the examiner, especially in view of only 10 claims originally filed. Notwithstanding, the detailed reasons for the rejection were directed only to claims 1-5.
